A CIA STORY

John Stockwell
Former Chief CIA Angola Task Force

Sixty Minutes, the front pages of the *New York Times* and the *Washington Post*, *Newsweek*, media all across the country are quoting John Stockwell's devastating account of how the CIA ran a disastrous secret war – and then systematically misled the National Security Council, Congress, the State Department, and the American people. Here is the toughest, most revealing book yet about the CIA, unique in its wealth of detail about the running of CIA operations, and as convincing as the man who wrote it.
